

Standing with moms like Lien

“ And let us consider how we may spur one another on towards love and good deeds...”

- Hebrews 10:24

Rocky and mountainous, fertile land is a precious resource in Laos. Lien and her husband struggle to coax their crops to grow. With new techniques, they hope for larger yields, better crops. When there is excess food, they can sell it and send their children to school, repair their home, and buy medicines they need.

When Lien became a part of Free a Family® she was overjoyed. Through the World Renew team in their village she learned ways to improve their diet, properly store their rice, and care for their pigs. Today, because of the training she participated in, her children eat a variety of nutritious vegetables fresh out of their own garden.

The techniques are paying off. Already their rice harvest has increased. One of their pigs gave birth, multiplying their income.

Thousands of mothers pray for someone to walk alongside them, to stand with them and give them a chance to thrive. Consider your gift to a mom today – a gift that will give her hope for a brighter future.

Lien and Kham Ann are excited to share their knowledge with their community. The new farming methods, kitchen garden, and lessons in nutrition are changing their life – forever.

As a part of the Free a Family® program, you are standing with moms world-wide, giving them something tangible to hope for: a better life for their children.

MOMS OF HOPE

**Empowering women.
Supporting mothers as they
support their families.**
