Water is Life

“ Jesus said: ...whoever drinks of the water that I will give shall never thirst, but the water that I give will become a well of water springing up to eternal life.” — John 4:14

We can survive for weeks without food—but only 3 days without water.

Binta in Mali worried that her family suffered with frequent stomach aches. She spent many hours a day carrying water from the pond in a neighboring village 2.5 miles away.

But the water she dipped from was teeming with unseen parasites.

Then World Renew helped dig a well in her village. It was a long process that took four months. Today, Binta has no fear of the water, it's clean and safe. World Renew also brought a health team to her village to teach parents the importance of sanitation and clean water—things we often take for granted, like washing our hands before eating and washing our dishes in clean water.

The well is giving new life to Binta, her family, and the whole community.
